UTAH BUILDING INDUSTRY CONFERENCE

Taxes Are the Worst. Here is What You Need to Know

- Tax law changes and how to plan around new legislation
- Dirty Dozen – Scams you need to look out for
- Tips and tricks for traversing the current economic environment

---

Alex, *upon graduating from Southern Utah University, moved his family to Mesquite, Nevada after accepting a position with HintonBurdick CPAs & Advisors. As he is a native resident to Mesquite, the opportunity to work and move home was the ideal choice. Alex enjoys working with members of the community, both long-time friends and new acquaintances, to better manage and streamline their business processes and to provide tax-advice. Alex specializes in tax-related accounting and is a member of the Construction Committee at HintonBurdick.*

Tad *was raised in a household where hard work and adventure were part of everyday life. He has used his work ethic to excel in many aspects of his life. Through love of numbers, business, and association with people, he has found the accounting and consulting arena a perfect fit. He started his career at Deloitte in Las Vegas where he learned much about tax and business entity structures. Wanting to be more involved with small businesses and have a more individualistic approach to his tax and consulting services, he joined the HintonBurdick team in 2013 where he has been able to blossom and increase his love for the industry and his clients. Tad specializes in tax and controller services and is a member of the firm's non-profit leadership team.*
